EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Michael Mehrman on February 28, 2008.

The application has been amended as follows:

Claims 50, 52-57, and 66-71 are cancelled.

In claim 58, line 4, replace "patents" with patients

In claim 58, line 6, replace "patents" with patients

Allowable Subject Matter

Claims 58 and 60-65 are allowed.

The following is an examiner's statement of reasons for allowance: Claim 58 is allowable because the prior art does not teach or fairly suggest a secure medical records system that comprises a first remote server for storing patient identification information, a second remote server for storing a patient medical data, wherein the medical data maintained on the second remote server cannot be correlated to the information on the first server, a plurality of removable memory storage device that

Art Unit: 1797

contains a computer readable memory storing correlation information sufficient to uniquely associate a patient's patient identification information stored on the first remote server with that of the patient's medical data stored on the second remote server.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
